Director's Message

We take complete responsibility of the students from education to placement and we believe this is how management education should be.

Dear Friends,

Let me first share my reasons for reaching out to you. The last business I started (GlobalLogic) grew to over 10,000 people within 10 years. My first-hand experience of handling business with such hyper-growth taught me a lot about people, like you and me.

Till date, I have interacted and reviewed thousands of job applicants and handheld successful professionals. The one thing I grasped from my experience with these people is that a true professional is created within a great campus. A sincere hand holding experience in the campus hones skills and boosts confidence that turns out quite beneficial for a great first job and a successful career progression. Especially when it comes to a PGDM program, an industry-oriented program where each student excels.

Keeping in mind the current situation of the management courses, I decided to re-design the PGDM program to meet today's needs. At Sunstone, the PGDM program has been re-done ground up. We made it contemporary, industry-oriented and more practical. In fact, this transition is common in other industries as well-3G gave way to 4G, which is now giving way to 5G. These are not incremental improvements, they are complete redesigns.

We started on this path eight years back with our path-breaking, problem-based learning design for experienced professionals which showed us amazing results throughout our journey. Our campus program has benefited the students a lot. Till date, Sunstone Eduversity has a 100% placement record with over 200 different recruitment companies empanelled with us. Our recruiters have always praised the talent they get from us.

Why Sunstone?

Deep Industry Connect

100% Placement Guarantee

Pay After Placement

AICTE Approved 2 year Program

9-month Paid Internship

Industry Synced Curriculum

Technology Enabled Pedagogy

Pay After Placement

We Take Complete **Responsibility** of Your Career

We believe that placement should be the responsibility of college/institute and not the student. Therefore, we introduce India's first Pay After Placement model for our PGDM course.

Student takes admission in the AICTE approved, 2 years PGDM program.

1

He pays a registration fee of Rs 65000 at the time of admission.

2

Only after the student gets a job, he will pay his course fee which is 10 times of his monthly salary.

3

We have immense confidence in our curriculum, pedagogy and our deep industry connect. We groom our students to be industry-ready and ask for course fee only after they get placed in the corporate sector. Sunstone Eduversity aspires to provide the most relevant, contemporary, affordable management education that is in sync with the industry requirements.

Education Loan

The students can easily get a loan to pay the course fee once they get placed. Sunstone Eduversity has a tie-up with various banks for the provision of an education loan facility.

Placement

The main focus of Sunstone Eduversity is to ensure that each student is well-placed in the corporate sector. To achieve this, we follow a curriculum which is closely aligned with rapidly changing industry requirements. Our experienced faculty train the students on various practical aspects of the industry to help them understand the overall corporate perspective and functioning.

Sunstone Eduversity also offers an intensive 9-month paid internship for every student that gives them experience and exposure of the corporate world and an 'on-the-job-learning' opportunity. This internship enhances the workplace skills of Sunstone students and gives them an edge over other college students during placements.

STUDENT SPEAK !

Sunstone Eduversity is not just a management institute but a place where I got my confidence. It has helped me improve my workplace skills.
Sai Mahesh

Sunstone Eduversity is a dream come true for all students. The 'Pay after Placement' model made me more independent.
Sawmya Kanuganti

The two years I spent at Sunstone were the best years of my life. The 9-month internship opportunity gave me industry experience and exposure.
Anil Chauhan

I always wanted to spend my own money on education. Sunstone gave me a chance to prove myself.
Sukanya Mohapatra

I was warmly welcomed at Shopclues, all thanks to my mentors at Sunstone who provided me with the right skill sets
Mahima Gaur

RECRUITER SPEAK !

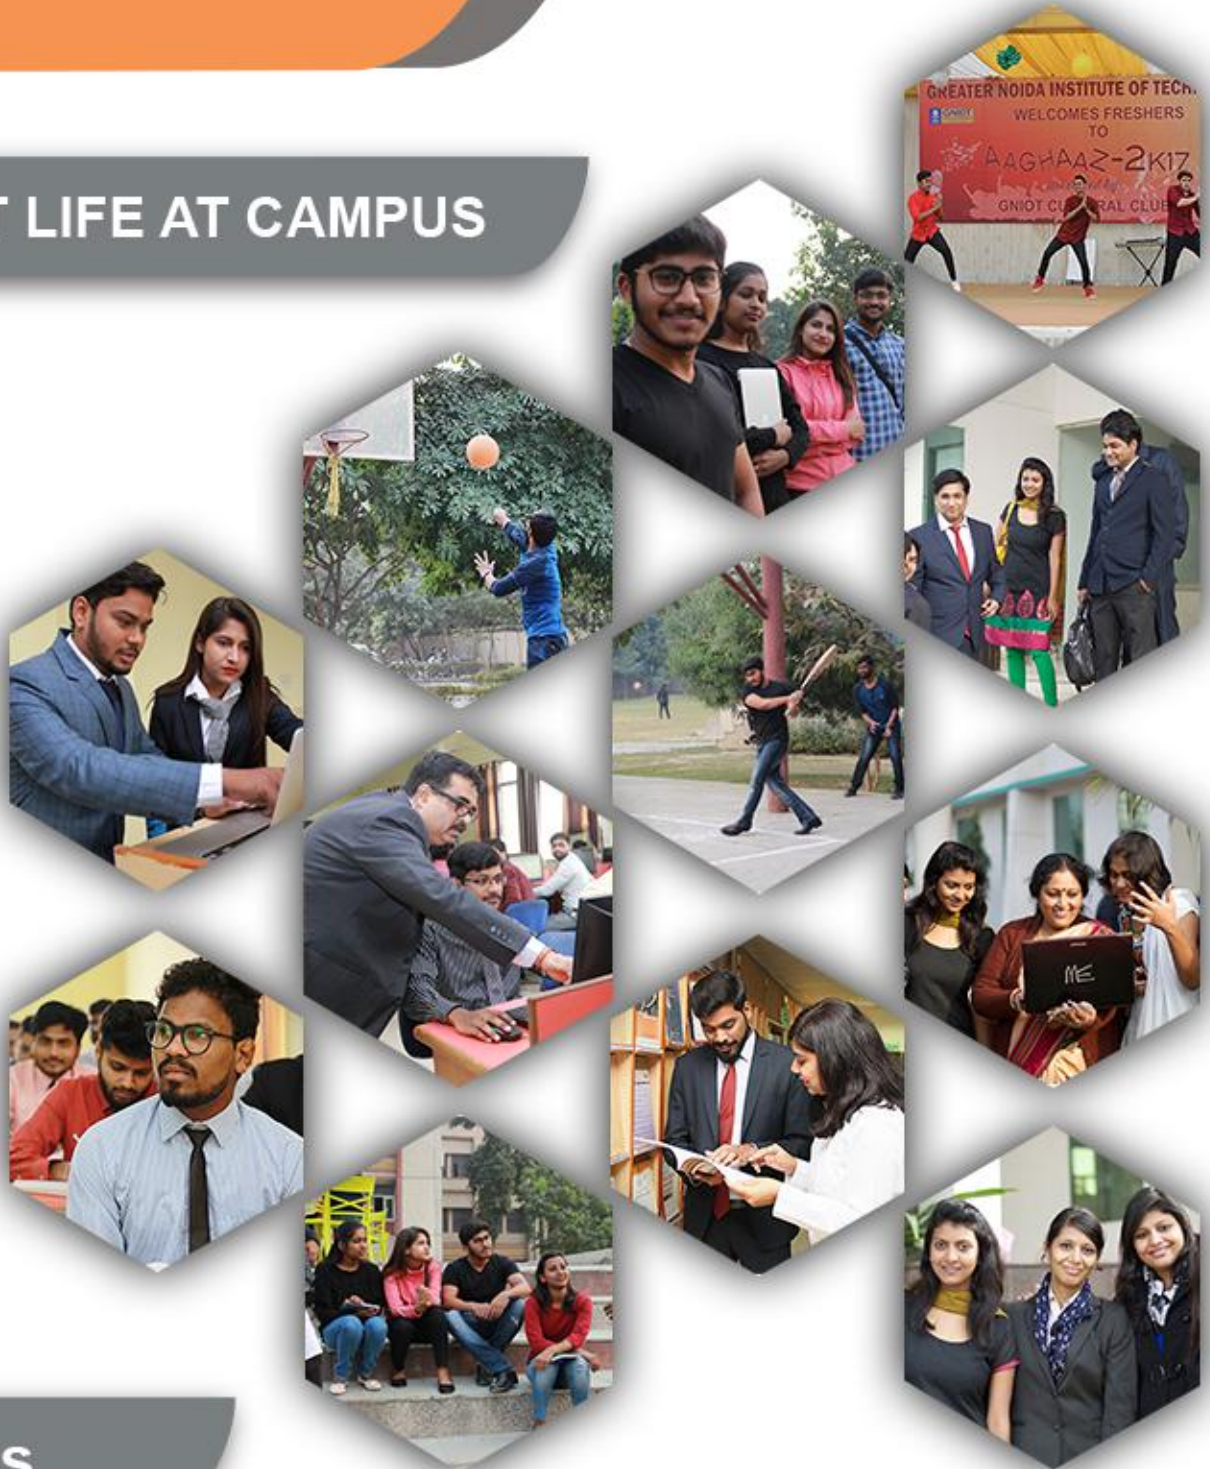

One of the good things which I have noticed about Sunstone Eduversity is : their problem-solving approach so that each student can become independent.
Sharad Agrawal (Executive Vice President, Godfrey Philips India Ltd)

We see Sunstone as a game changer, providing candidates with excellent work ethics and who can hit the ground running.
Gazal Kalra (Co-Founder, Rivigo)
